

Enneagram Assessments & Feedback Session/s

Would you like to, once and for all, eliminate behaviors that are getting in the way of your best life?

The Enneagram represents 9 core types that represent a certain world view & perspective. Each of these resonates with the way certain people think, feel and act in relation to the world, other people & themselves.

When you know your core type, you get a deeper understanding of your patterns & behaviors – both those that work and those that keep you stuck (such as stress, over-committing, procrastination, over-working, analysis paralysis, not completing projects etc). You then have more awareness and choice in regard to other patterns & behaviors that can move you forward both personally and professionally.

If you know your type or have done one of the free online assessments, you may not have seen your full report. The Integrative 9 assessment provides a detailed document showing you your core type, sub-type, centers of expression and more. It also provides practical, actionable recommendations just for you.

Because the report is comprehensive, It is offered with a feedback session (or sessions) to support you.

Enneagram clients are saying:

I found the Enneagram Assessment very comprehensive – not just an interesting exercise.

Because it was comprehensive, I needed Janette to help me go through the assessment. I did not have the knowledge and training. She supported me in bringing in some lesser personality types to soften the more prominent one that dominated my life. I believe the Enneagram and assessment is a valuable tool to use in business as well as our personal life. P. B., California

Learning about my core type has taught me so much about my personality and why I respond to certain situations the way I do. What I loved about the report was how it explained my strengths and weaknesses and gave me challenges to overcome my weaknesses. April 2019 Workshop Participant

Janette's explanation of my Enneagram was the first assessment that ever told me HOW to change my mindset to be more of the person I wanted to be. B.B., California
